

Our solutions help businesses streamline operations and focus on what really matters - the guest.

## Improve The Guest Experience with our Guest Paging.

Businesses understand the importance of communicating with guests.

Increase operation efficiency and enhance the guest experience with guest paging systems and a discreet manner.

Manage guests and deliver the service they need quickly and directly with notification or message-based paging system.

## Clear the Counters!

### **Simplify the Guest Experience**

Give guests the simplicity of a pager to discreetly notify them when their action is required.

### **Enhance Productivity**

Proven as the simplest way to manage guest notifications, traditional paging systems are fast and easy to operate.

### **Work more efficiently**

Your labor costs will be reduced and you will have a Return-Of-Investment within 30 to 60 days.

### HOW IT WORKS

- 1 Arrive**  
Your guest arrives.
- 2 Order**  
Your guest orders.
- 3 Pay**  
Your guest pays.
- 4 Assign**  
Your guest receives a pager.
- 5 Notify**  
The order is ready - the pager informs your guest so that he can pick up his order.
- 6 Respond**  
Your guest returns the device and receives the service.

PAGERS

**Coaster Call CS6:  
Entry model**

The CS6 Pager is our inexpensive model with only red LED's and label number.

**Coaster Call CS7: 2.0  
Standard model**

The CS7 is not only armed with a robust case incl. numbers display but also with adjustable color LED's, for example green and blue.

OPTIONS

**Coaster Call CS8: 3.0  
PRO-model**

Our Top model - with a new chipset. All the features of the CS7 plus deep discharge protection, a more robust housing and the option of attaching changing advertising.

**Keypad Protector P1-0064**

The silicon overlay protects the 7471A keypad from soilings reliably.

**Metalholder MH-02**

The practical return station for Coaster Pagers also charges.

TRANSMITTERS

**TX-9561EZ**

For Guest Paging this transmitter is the perfect starter model. You can call up to 20 pagers directly with only one touch.

**TX-7471A**

Our professional device provides many opportunities in usage and adjustment. This transmitter is armed with a long range and a high level of stability. It is compatible with all LRS Systems.
