

GUEST PAGING

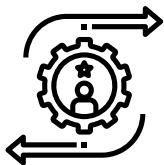

Robust versatile The RX-CS8

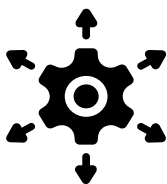

NOW AVAILABLE

NEW FEATURES & IMPROVEMENTS

The new CS8 was developed with our customers on the basis of our previous pagers, to create a device that meets all requirements.

Quicker informing and directing customers and staff

Optimizing processes

Optimizing response times

Backwards compatible

The CS8 can be seamlessly integrated into existing LRS systems and enables a cost-effective conversion.

New Li-Ion battery

The new CS8 has a significantly longer lifespan due to its automatic deep discharge protection.

New housing material

Composed of individual fibers, the advanced casing of the new CS8 offers far greater robustness.

Cover and LED-Ring

Enclosed by the individually adjustable LED ring, the new CS8 comes with a window for changing advertisements and cost reduction.
